Free Prompts for:

Literature reviews..... pg4

Data collection..... pg6

Project timelines..... pg8

Collab request emails..... pg10

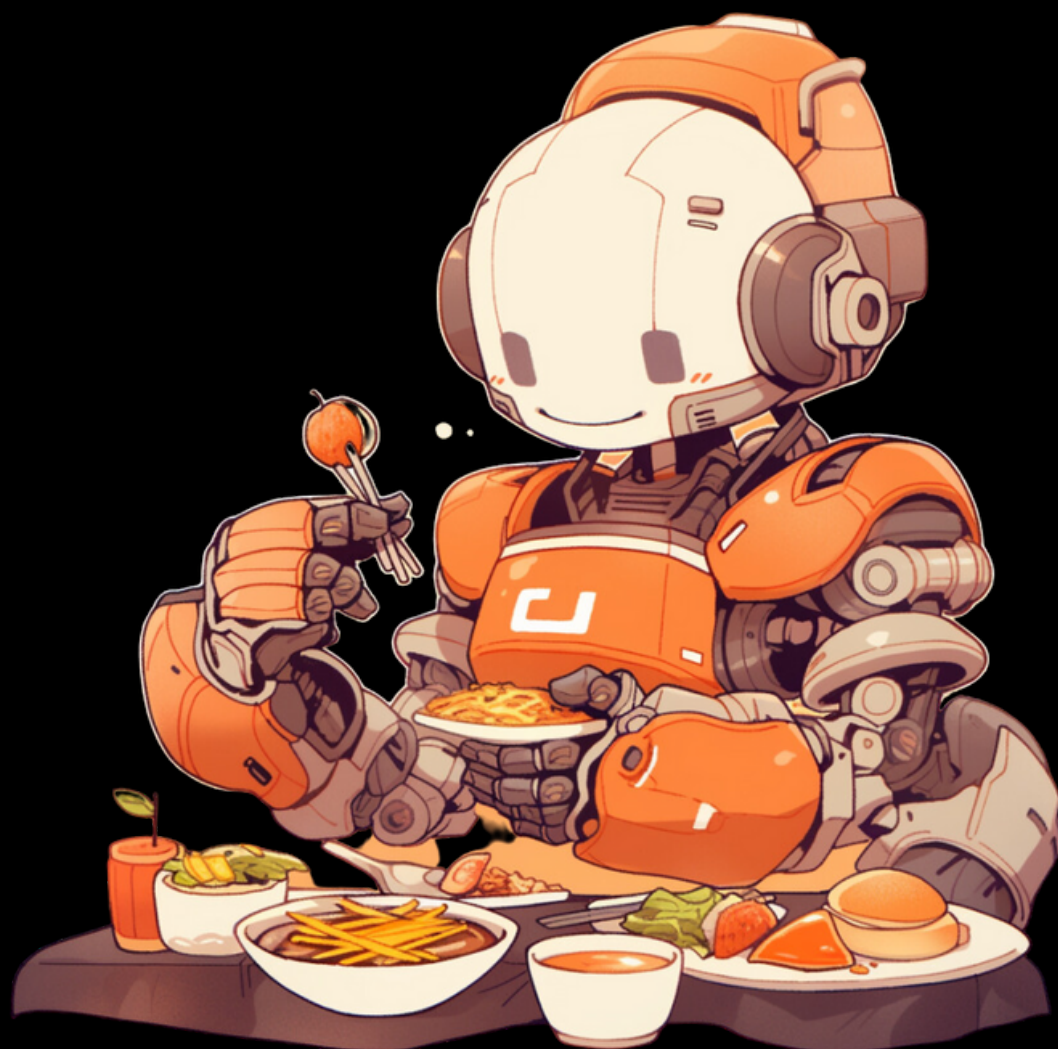

Multitasking in research... pg12

Remember to Feed your AI

Your AI is hungry. The more data and info you feed it as part of your prompting, the stronger it gets and the more it helps you.

Tell it about your job and project every time you prompt!

Literature reviews can be tricky and daunting to new researchers.

This prompt provides structured steps for literature reviews, ensuring a thorough and efficient review of existing literature.

Prompt: "Recommend best practices for conducting a literature review in [field, e.g., 'anthropology']."

Efficient data collection in challenging environments is not always simple. This prompt offers tips.

Prompt: "List methods to optimize data collection in a remote [area, e.g., 'rainforest'] for [study type, e.g., 'ecological studies']."

This prompt directs researchers to effective project management tools, ensuring milestones are met on time.

Prompt: "Recommend tools and methodologies for creating and managing a research project timeline."

Collaboration requests can be tricky. This streamlines the outreach process, ensuring clear and respectful communication.

Prompt: "Offer an email template to request collaboration with another researcher in the [field, e.g., 'molecular biology']."

This prompt aids researchers with a key aspect of research: task management, ensuring efficient progress across various projects.

Prompt: "Recommend strategies for prioritizing multiple research projects and tasks."
