

FREE ChatGPT Prompts

Business Intelligence Edition

Free Prompts for:

Forecasting techniques..... pg4

Data integration..... pg6

Ethical considerations..... pg8

Data literacy..... pg10

ROI of BI tools..... pg12

Remember to Feed your AI

Your AI is hungry. The more data and info you feed it as part of your prompting, the stronger it gets and the more it helps you.

Tell it about your job and project every time you prompt!

Forecasting using advanced techniques can provide more accurate predictions, helping businesses prepare better.

Prompt: "Suggest advanced analytical techniques to forecast [specific metric, e.g., 'sales'] for the upcoming [season, e.g., 'holiday season']."

Integration checklists with steps reduce trial and error, ensuring seamless data transfer for timely analysis.

Prompt: "Provide steps to integrate data from [specific platform, e.g., 'Salesforce'] into our BI tool for analysis."

Understanding ethics upfront can prevent potential pitfalls and legal issues in data handling and presentation.

Prompt: "What are the ethical considerations when analyzing and presenting data from [specific domain, e.g., 'healthcare']?"

A data-literate team can make better decisions and would need less frequent explanations, freeing up time for the BI team.

Prompt: "Offer suggestions to improve data literacy among our [specific department, e.g., 'marketing'] team."

A structured framework ensures that all essential factors are considered, making the evaluation process systematic and comprehensive.

Prompt: "Suggest a framework for evaluating the ROI of our BI tools and initiatives for [specific timeframe, e.g., 'Q1 2023']."
