Remember to Feed your AI

Your AI is hungry. The more data and info you feed it as part of your prompting, the stronger it gets and the more it helps you.

Tell it about your job and project every time you prompt!

Having a well-crafted profile can make or break your online dating experience. A prompt to generate a compelling profile will save hours of pondering how to present yourself.

Prompt: "Help me write an engaging and authentic profile summary for my online dating account on [platform] with a [vibe] vibe. [insert description of self]"

Crafting the perfect first message can be time-consuming. A template saves the effort of overthinking each introductory message, speeding up the process and increasing your chances of a response.

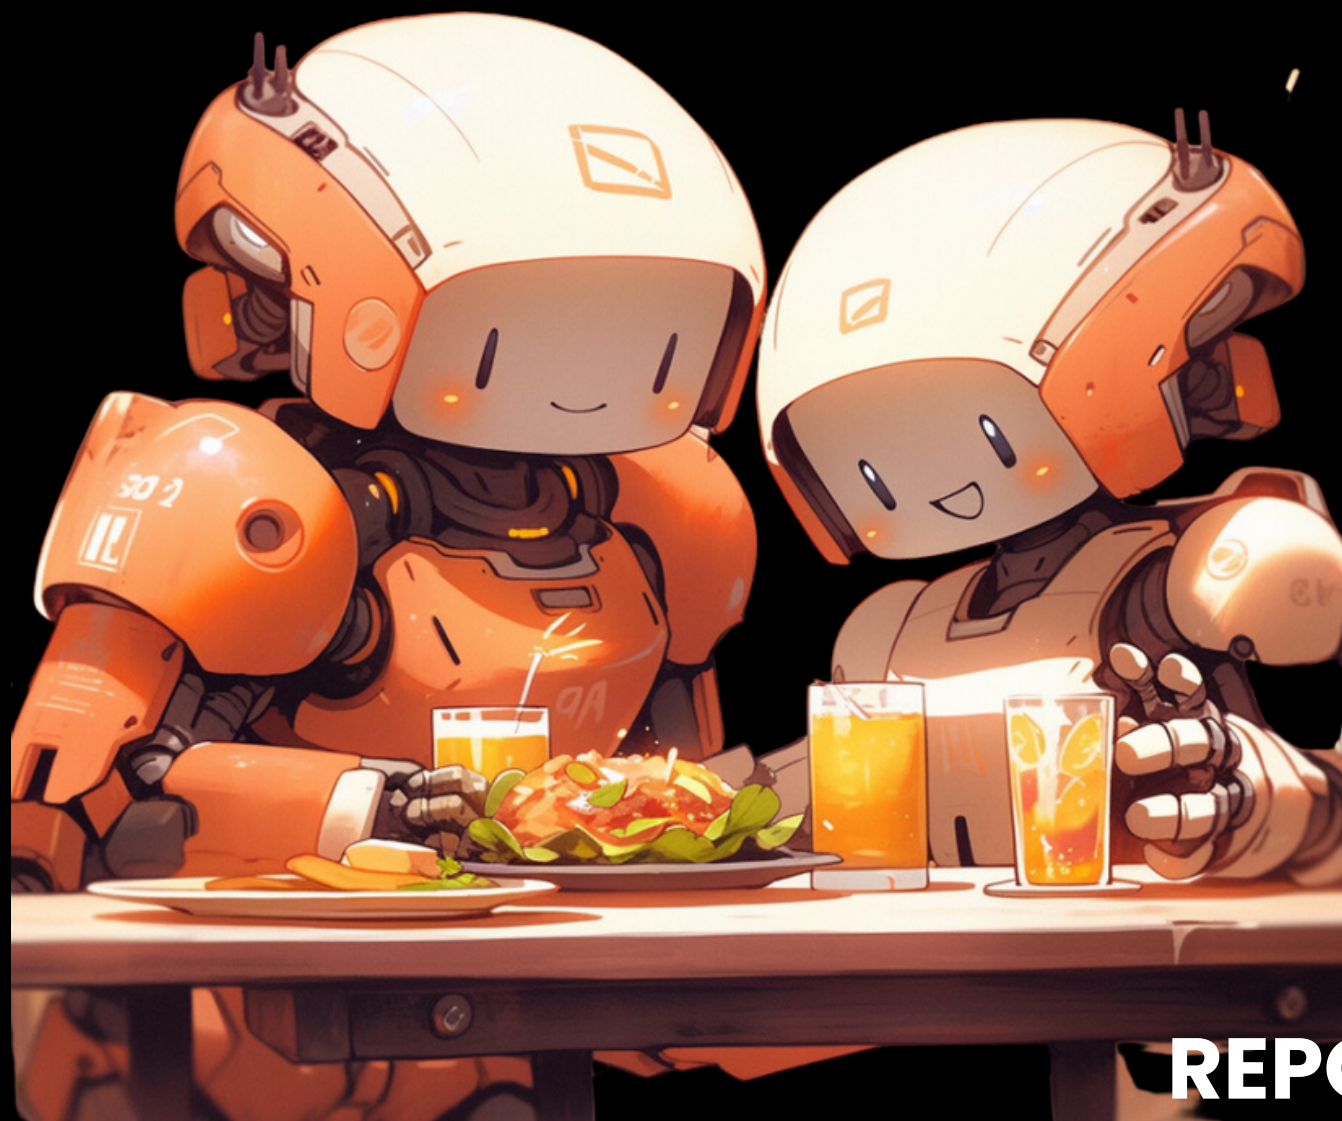

Prompt: "Create multiple templates for an opening message to use on [dating apps] for various different types of profiles."

Rather than brainstorming date ideas from scratch, having a list of creative suggestions can save you time and impress your date.

Prompt: "List unique and interesting first date ideas suitable for [season and location] given my date's profile [insert profile]."

Knowing which red flags to look out for can save you from wasting time on unsuitable matches and help you focus on people who are more likely to be a good fit.

Prompt: "Provide a list of red flags to watch out for when browsing profiles or chatting with potential dates on [platform]."

Sometimes things don't work out, and it can be hard to let a nice person go in a way that isn't hurtful. AI is great at writing breakup texts/emails/messages.

Prompt: "Write a polite and kind yet firm and clear [message/ email] for me to tell [name] that I enjoyed our time together but it isn't a great fit and I don't want to see them again. Be extremely clear and unambiguous."
