# Remember to Feed your AI

Your AI is hungry. The more data and info you feed it as part of your prompting, the stronger it gets and the more it helps you.

Tell it about your job and project every time you prompt!

Brainstorming episode topics can be one of the most time-consuming aspects of podcasting. Having a generated list of suggestions can jumpstart the creative process.

Prompt: "Suggest episode topics for a podcast focusing on [specific niche, e.g., 'sustainable living']."

Structuring an episode ensures smooth flow and comprehensive coverage. A ready-made template can eliminate the need to build one from scratch every time.

Prompt: "Provide a template for structuring a [type of episode, e.g., 'guest interview'] podcast episode."

Drafting promotional content for each episode can be repetitive. A customizable template allows for consistency and saves drafting time.

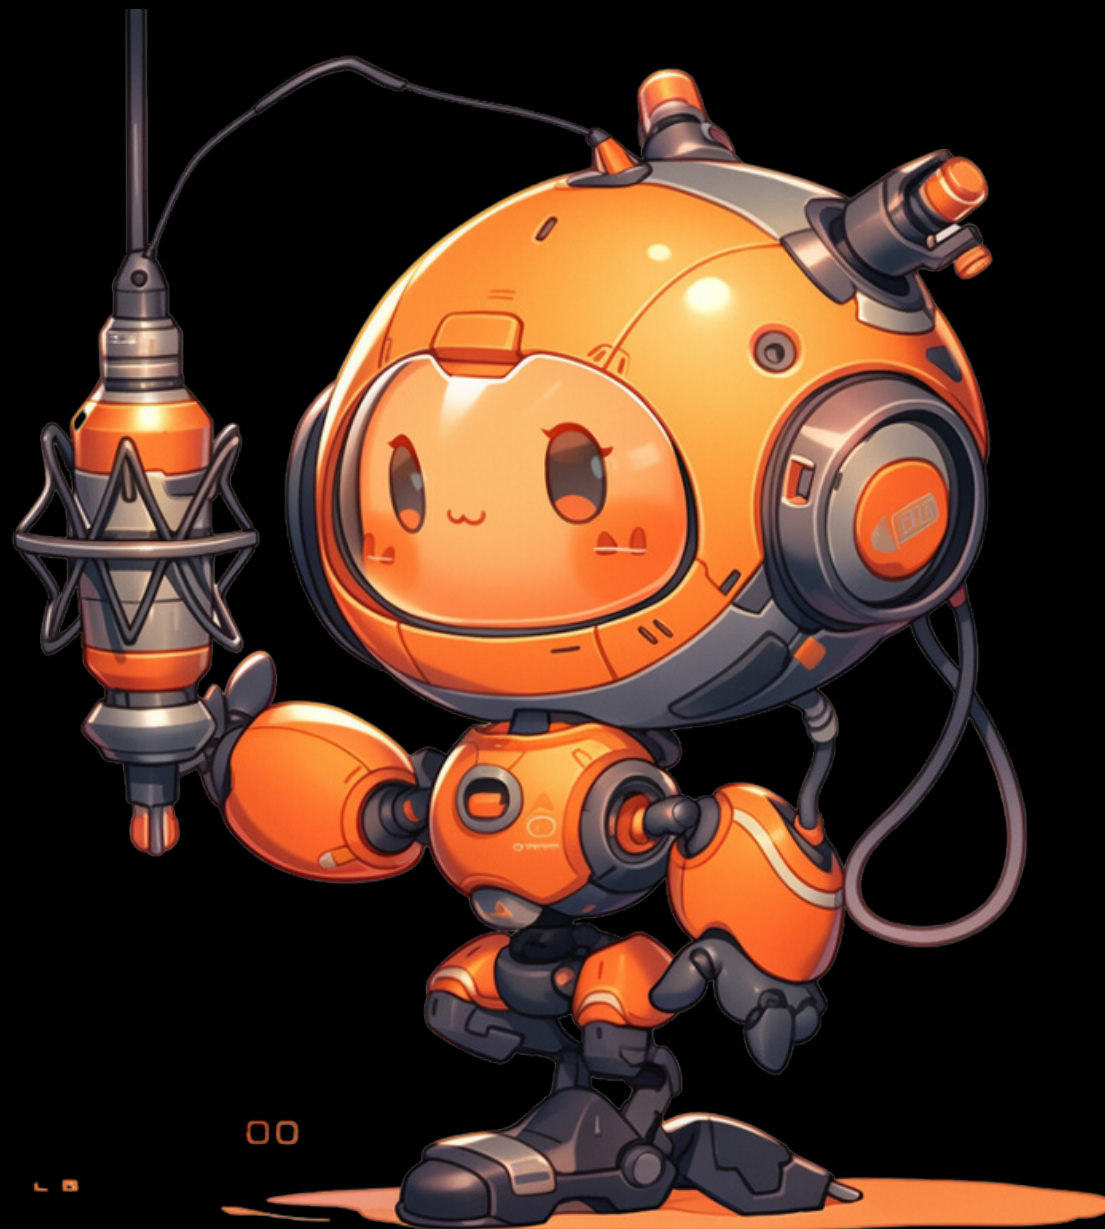

Prompt: "Generate an advertising template to promote new episodes of a podcast in [specific genre, e.g., 'true crime']."

Marketing a podcast can be daunting, especially if it's a new area for the podcaster. A strategy outline helps in targeted efforts, eliminating trial and error.

Prompt: "Outline a marketing strategy for a new podcast focusing on [specific topic, e.g., 'ancient civilizations']."

Engaging listeners on social platforms is key, but coming up with post ideas can be challenging. Ready-to-use ideas provide content without the brainstorming.

Prompt: "Provide social media post ideas to engage listeners between episodes for a [specific type, e.g., 'health and wellness'] podcast."
