

# AI Image Showdown

## ep.20: Lasercut Woodcarving

**Prompt: Lasercut woodcarving. A soaring dragon in flight. Incredibly detailed. Overengineered. Excessive. Gone wild. Joyous. Fun. Asymmetrical.**

**REPOSTME** 

**Subject:** What your image is about, the main idea

**Action:** What is happening in the image

**Background:** what is behind the subject/action

**Medium:** realistic photograph, illustration, sketch, cartoon, anime, painting, sculpture, collage

**Style:** use one of my styles or make up your own!

**Adjectives/Mood:** happy, joyous, excited, dynamic, active, passive, engaged, interested, confused, sad, scared, terrified

**Lighting:** bright, intense, luminous, specular, diffuse, daylit, golden-hour, dim, dark, chiaroscuro

**Camera:** Canon Eos Mark5D, iPhone, GoPro, Polaroid, Fujifilm X100, Leica M11, try lenses too!

**Composition:** asymmetrical, symmetrical, skewed, off-center, centered, crowded, minimalist

**Note:** In SD/SDXL models like Leonardo and Musavir, **Medium** and **Style** are also drop-downs

**Dall-E 3**

**Firefly 2**

**Google** won't do "gone wild"

**Leonardo 2**
