Free Prompts for:

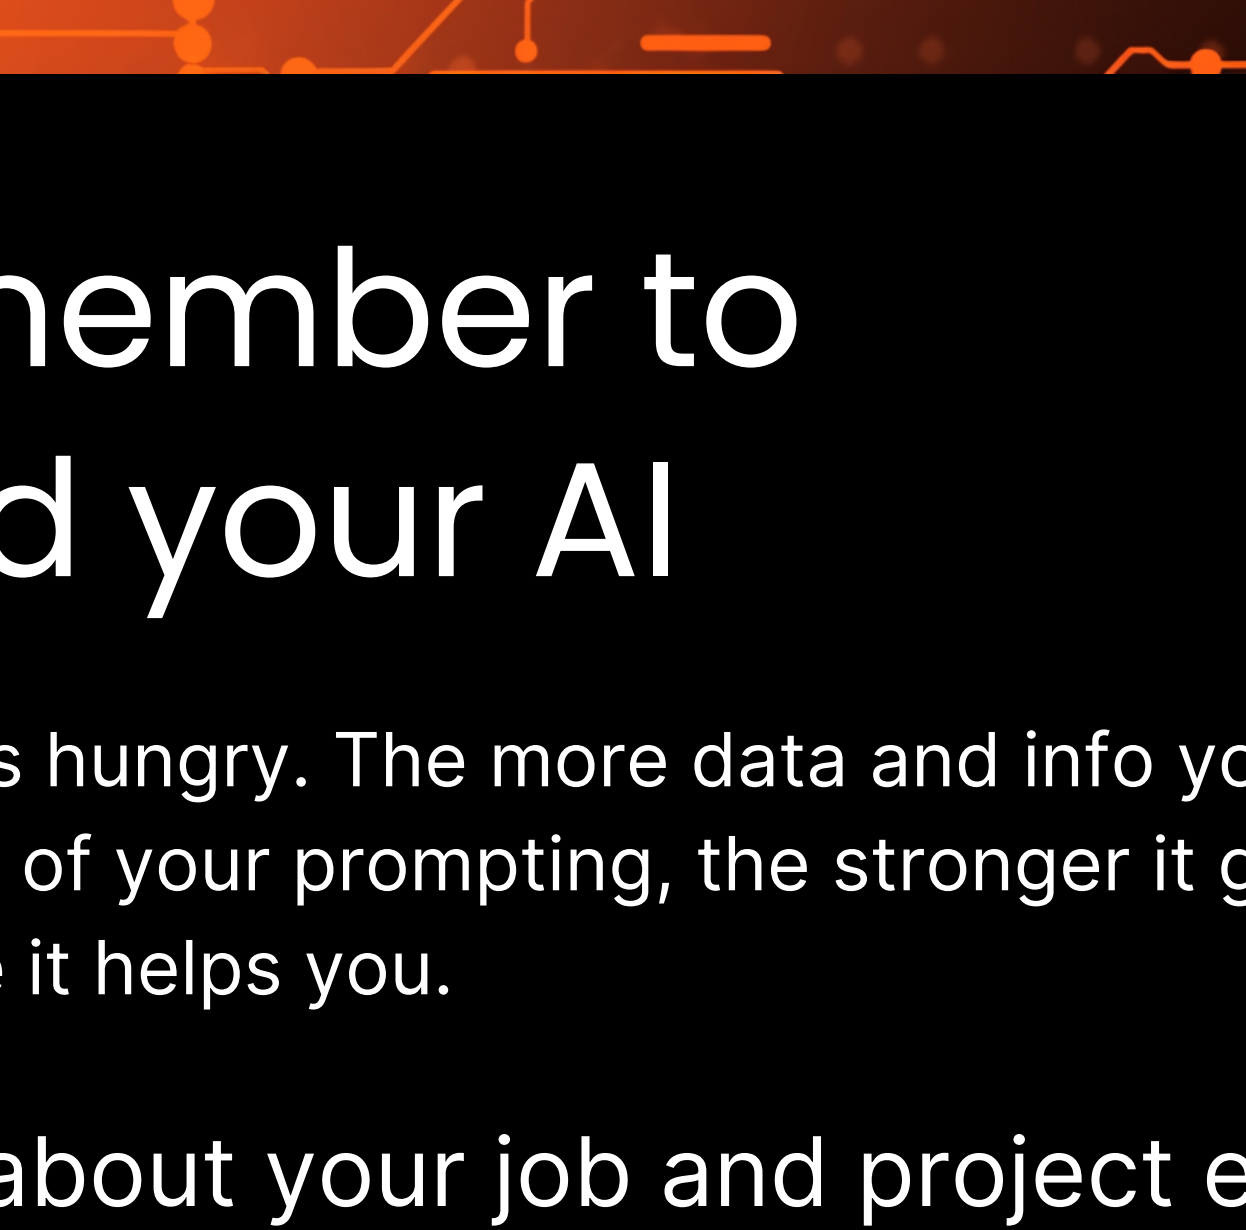
Employee training..... pg4
Regular updates..... pg6
Ad campaigns..... pg8
Social posts..... pg10
Anti-phishing emails..... pg12

REPOSTME

Remember to Feed your AI

Your AI is hungry. The more data and info you feed it as part of your prompting, the stronger it gets and the more it helps you.

Tell it about your job and project every time you prompt!



REPOSTME

Prompt 1

Proper training can dramatically reduce the risk of employees falling for phishing attacks. A targeted list will help in creating or selecting the right educational material.

REPOSTME

Prompt 1

Prompt: "List key topics to include in an anti-phishing training program for [specific department, e.g., 'the finance team']."

REPOSTME

Prompt 2

Keeping employees informed about latest phishing techniques can prevent breaches. Quick updates can be integrated into regular communications.

REPOSTME

Prompt: "Provide a brief overview of the latest phishing tactics observed in the [specific industry, e.g., 'banking sector']."

REPOSTME

Prompt 3

Making the broader community aware can lead to fewer victims and faster reporting. Tailored ad concepts can quickly convey the message.

REPOSTME

Prompt: "Suggest advertising concepts to raise awareness about phishing scams targeting [specific group, e.g., 'senior citizens']."

REPOSTME

Prompt 4

Social media can be a powerful tool for awareness. Relevant posts can reach a broad audience and prevent potential attacks.

REPOSTME

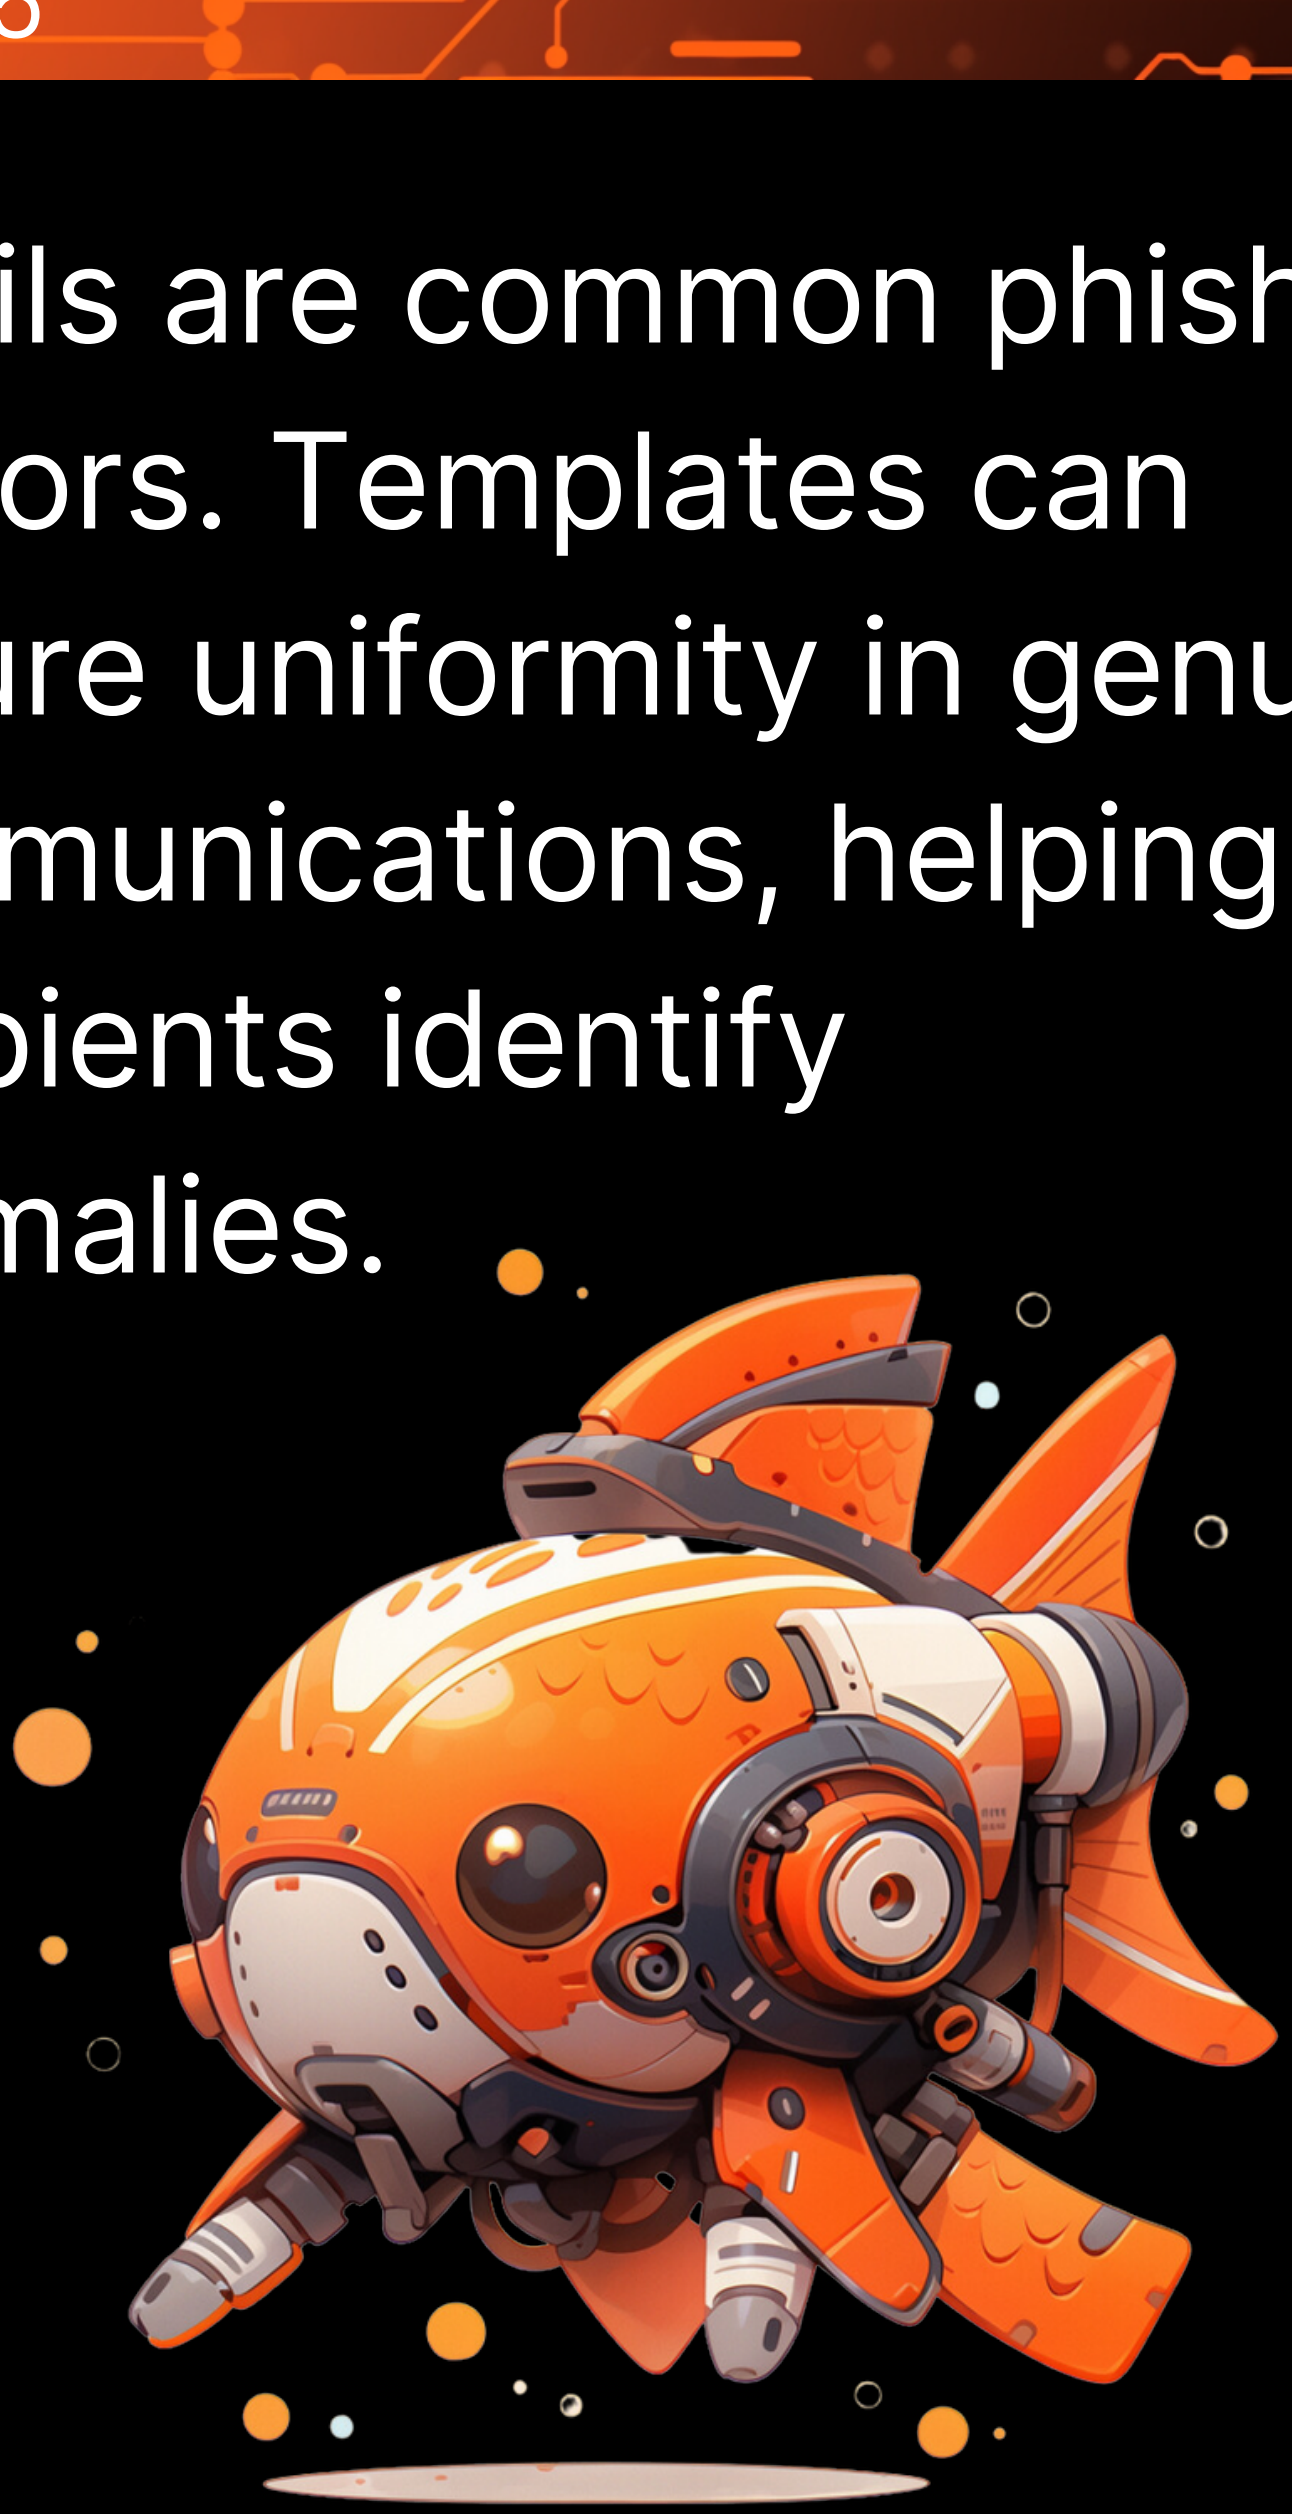
Prompt 4

Prompt: "Generate social media post ideas to educate followers about recent phishing trends during [specific season]."

REPOSTME

Prompt 5

Emails are common phishing vectors. Templates can ensure uniformity in genuine communications, helping recipients identify anomalies.



REPOSTME

Prompt 5

Prompt: "Draft a standardized email template for [specific company, e.g., 'XYZ Bank'] that includes elements to help customers distinguish it from potential phishing attempts."

REPOSTME

Without your **reposts** and **comments**, nobody wants to buy my phish
